

## POSTER PRESENTATION – PREPARATION GUIDELINES

When using the paper submission system, you must select your preferred presentation type.

### TECHNICAL SPECIFICATIONS FOR POSTERS

The poster for your presentation should be prepared on **B1 size paper** (707mm×1000mm) and must not exceed these dimensions. The papergrammage for the poster should be **no less than 140 g/m<sup>2</sup>**.

### POSTER CONTENT

Below the poster header, in the designated text fields, you must include the **paper title**, and **author/institution information** as indicated in the example format.

#### Prescribed font sizes and styles:

- **Paper Title** – Times New Roman, 72 pt, Centered, All Caps (unless the title contains formulas or special characters that require lowercase).
- **Author(s) and Institution(s) Information** – Times New Roman, 28 pt, Centered.

Authors are recommended to include the following sections in their poster:

- **Abstract** – A brief description of the research, highlighting and presenting the key results.
- **Introduction** – Emphasize the objectives set in the research.
- **Method** – Present how the research was conducted (sample, location, time, measuring instrument, statistical methods used if applicable).
- **Results** – Use simple graphical representations (tables, charts, figures) for presenting results, and include mandatory legends for easier understanding.
- **Discussion** – Includes an analysis of the obtained results, in the same order as they were presented. All results should be compared with already published results from similar research.
- **Conclusion** – Should be short and clear; highlight other results, trends, and directions for future research.
- **References** – References should be cited according to APA standard (7th edition).

**Note:** Please be aware that the presentation format does not diminish the value of your paper. All accepted and presented papers will be included in the proceedings of the Faculty of Pedagogy without indicating the format in which they were presented.
